Dear Mr Hill

I am very pleased to present the M.S.
of the Grace Anthem to the Musician's Company —

But I have to make a confession — I hope I have
not done wrong in allowing it to be published by the
Year Book Press with English words — in this form it
is often sung at King's College Chapel as an Introit —

They publish a great deal of my husband's work
& specially Church music — I am sorry I have not

got a spare copy to send you — It is printed with

another short anthem as No. ^A22 of the Year Book Press

Series of Anthems & Church music — They took

a large number of his unpublished compositions
soon after his death & your anthem went with the

rest — If I have unwittingly done wrong in

allowing this I will gladly ask Mr Deane to
transfer any benefit I may have or have had from it to
