Sir

I am anxious if possible to shew in some small way our gratitude for and sincere appreciation of the valuable favors and benefits bestowed by The Musicians Company on this Institution during the past year and the great encouragement thereby given to Students of Military Music and believing that the Worshipful Master Warden & Court and Company having shown so great an interest in The Royal Military School of Music would appreciate hearing the full Military Band of 170 performers play a programme here I propose to invite The Worshipful Master Warden & Company to an afternoon concert specially arranged in the month of July
