

at the Meeting of the Court in October last - No doubt this gift will be agreeably watched by the Students in our School.

I am very glad that the Principal or Director is allowed to avail himself of the assistance of two of his principal Professors as it will lighten a rather difficult task very considerably - I perceive that the name of the R. A. M. comes first on the list - Will you kindly inform me whether the Company of Musicians intend to present the Medal during this Session? Should that be the case it would be as well to let me have as early a notice as possible.

Again thanking you - Believe me

Very faithfully yours
H. C. Mackenzie.
