

As I have often told you I greatly value the honor the
Worshipful Company of Musicians conferred on me when about 12 months
ago they presented me with their honorary freedom & I am glad to
learn that my proposed gift to that Company will be acceptable to them.

I think the suggestion that the money I give viz £1000 should
be used to establish a Scholarship is a very happy one & naturally very
much appeals to me as being a means of further helping British
Musicians & British Music. To found that Scholarship at the Guildhall
School of Music & call it the "Ernest Palmer Scholarship of the
Musicians Company" is another of your happy thoughts that I am
only too pleased to agree to.

I am sending you my views at once although I note your next
Court will not be held until 11th July but presume you would prefer
that I did not send my cheque for the £1000 till after that date
when all has been finally agreed on but I place myself in your hands.

With kindest regards

Yrs. very sincerely

S. Ernest Palmer
