Toast of
the Company

The Master reported that the Lord Mayor had declined his request that he would give the Health of the Company at the end of his reply to the Civic Toast and the Toast of the Company was therefore not provided for in the evening's programme. He suggested that Lord Blansburgh might be asked to give the Toast at the end of his speech. This was approved.

Past Master Sir Ian Malcolm proposed that the clerk be instructed to see that the Toast was not omitted on any future occasion. The clerk pointed out that it was only omitted when by the attendance of the Lord Mayor or otherwise the speeches threatened to leave no time for Music. Sir Ian Malcolm's motion was approved.
