## ENTS IN FRENCH TRENCHES IN THE VERDUN BATTLE

... trench in the trenches near the Meuse.  
... shows a French Private with his eye on the  
... enemy machine gun. (French War Office  
... photograph.)

At the London Macclesfield House the Macclesfield Company gave an entertainment to wounded soldiers. During the  
entertainment a gold watch was presented by the Lord Mayor on behalf of the Company to Piper Daniel Laidlaw, P.C.  
(King's Own Scottish Borderers). Our photograph shows the Lord Mayor shaking hands with Piper Laidlaw after the  
presentation.

This trench on the Meuse is in the direct line of fire.  
It shows their perfect construction. The incident shows  
this sector on a tour of inspection and enquiry. (French  
... photograph.)
